Compact Filling Systems

Kosan Crisplant's mobile compact filling systems are designed for safe and efficient filling and checking of all kinds of LPG cylinders.

- Small flexible mobile and prefabricated platforms – plug and play
- Ideal solution for quick installation
- Suitable when rebuilding and renovating existing filling plants
- Flexible system - arrangement according to customer needs
- Platform size according to actual need for equipment
- Comprise Kosan Crisplant's thoroughly tested standard filling equipment

One-man LPG filling unit with four UFM universal filling machines and complete platform with LPG pump unit, ex-proof power panel and piping arrangement (incl. filter, differential pressure valve and LPG liquid level sensor)

Example of one-man LPG filling unit with two UFM universal filling machines

Compact Filling Systems

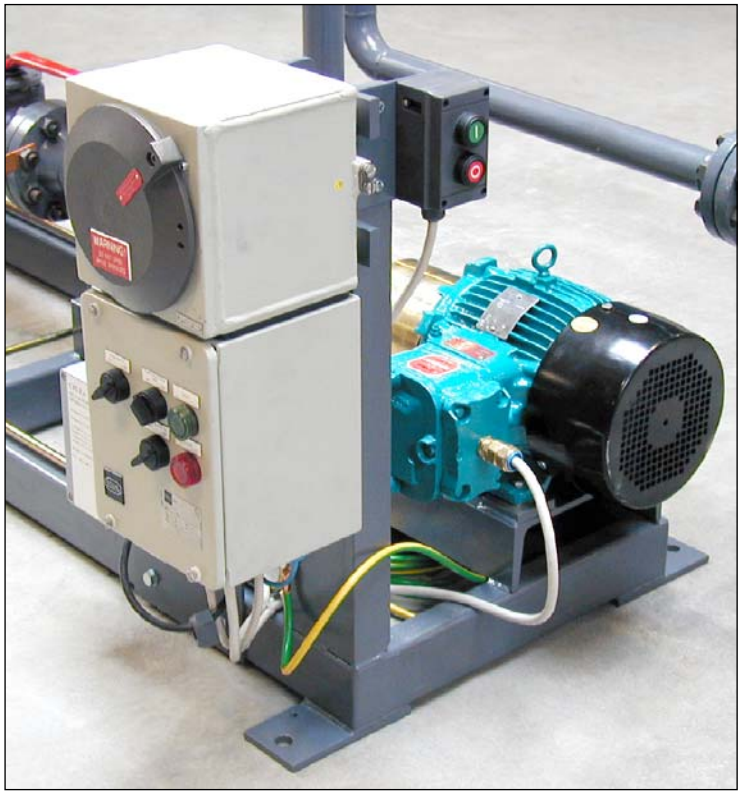

Your benefits

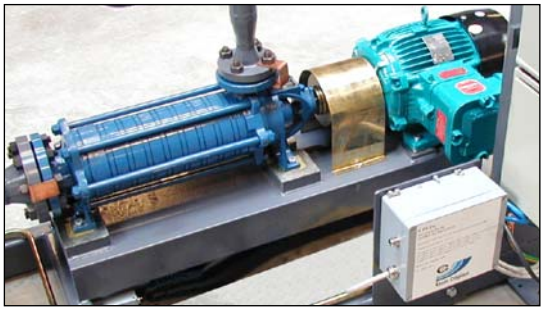

- Easy installation on site
- Simple layout and maximum safety
- Minimum civil work and engineering
- The plant can be made independent of external power supply (e.g. in rural areas)
- Low power consumption
- Easy and safe to operate
- Ready for integration in filling system network
- Ready for communication with PC for data collection
- Comprise all necessary equipment for safe and reliable filling of gas cylinders
- Capacity increase is possible
- Minimum space requirements

UFM universal filling machine

Ex-proof power panel, start/stop switch and electrical motor for LPG pump unit

LPG pump unit, ex-proof electrical motor and Kosan Crisplant's CPI power supply for intrinsically safe network

Detail of piping arrangement: shut-off valve, safety valve and earthing connections

Your possibilities

- 1-8 filling machines
- Supply of standard filling plant equipment
- Supply of roller or chain conveyor
- Different platform sizes

Your safety

- All equipment and machines are EU approved and designed in accordance with current EU directives EN 50014, EN 50020, EN 50081, EN 50082, EN 55022, incl. the ATEX Directive (94/9/EC)
- All equipment and machines are designed for use in hazardous areas classified as Zone 1 according to IEC 79-10 and Class I, Division 1 according to NEC (USA), article 500
- Filling machines and check scales have weighing Accuracy Classification C3 according to OIML R 76/EN45501
- National/local approvals
