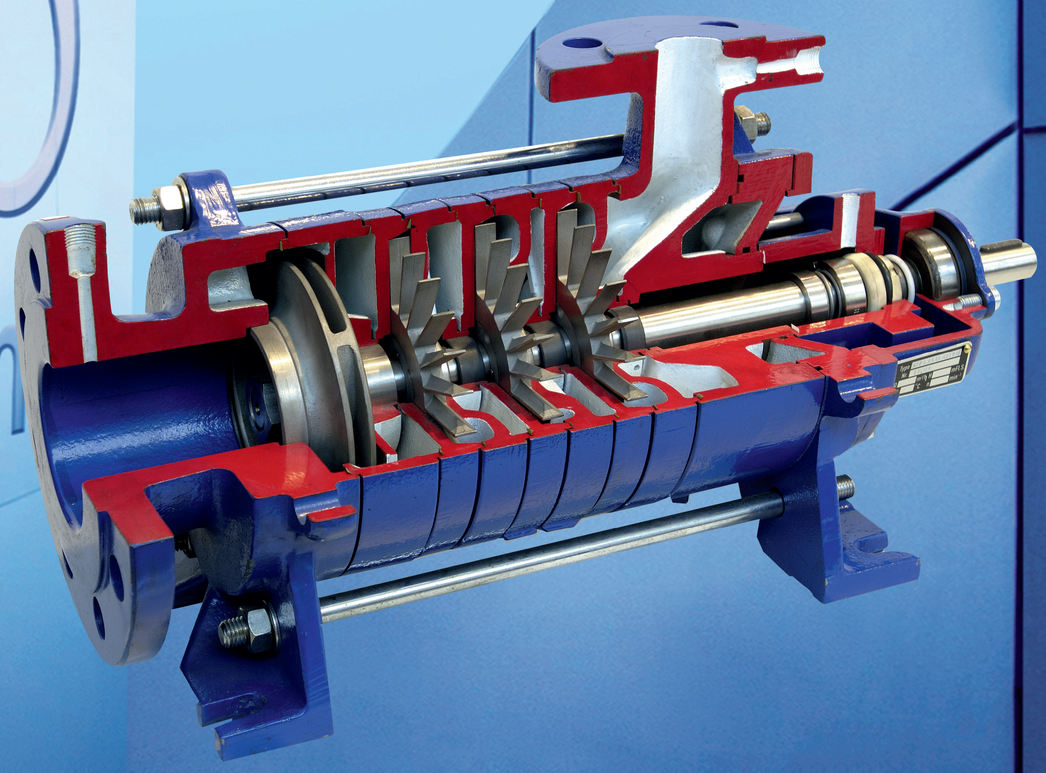
Inspiring Technology.
Meeting Your Needs.

SERO PumpSystems

SERO PumpSystems is the one of the leading manufacturers of Side Channel Pumps. Engineered and manufactured in Germany they comply with the highest demand in LPG services.



Applications

- Loading and unloading tank cars
- Carousel filling / bottling
- Vaporizer feeding
- LPG tank stations / fuel-filling

Advantages for you

- The hydraulic may handle liquid-gas-mixtures with up to 50% gas
- Reliable pumping due to extremely low NPSH-values
- Steep Q-H characteristic curve
- For low flows and high heads
